

Join Avanade's Cyber Security Institute

Want to stay ahead of the curve?

Avanade proudly launches the **Cyber Security Institute**, in collaboration with Microsoft, offering you the unique opportunity to grow your security expertise as you start your new role as Cyber Security Consultant at Avanade. This two-month program is a first of its kind deep training framework that will provide 8 weeks of virtual training focused on cyber security. Whether or not you have relevant cyber security experience, this Academy is designed to give you the skills and certifications on Microsoft's security products so you can take your career to new heights at Avanade right as you get through the door.

I have no (or basic) cyber security knowledge

Cyber security is not an afterthought anymore. With the fast pace to the cloud, security is all around us and top of mind for our clients and their customers. We care more about who you are and where you're going, than where you've been. Technology changes fast, so if you are ready and passionate to create what's next for our clients, we'll shape the future together.

I'm a (cyber) security professional with no Microsoft expertise

Did you know that Microsoft reached \$10B in cyber security sales? With a goal to grow up to 400% in the next years, you want to be on the forefront of this technology to stay in the game. Bring your security expertise and we'll offer you a place to innovate, create and challenge yourself. Together we push the boundaries of the possible.

Get best-in-class training

The full-time certifying training cycle will take place in English and combines theoretical modules with practical work modules, supervised by cyber security experts from Avanade and Microsoft. During this training you will work on the latest technologies in data security, identity, cloud security, endpoint security and alert management while acquiring the latest Microsoft certifications.

Why join this program?

- ✓ When you are passionate about new technologies and security, interested in corporate cyber security issues and overall have a curious, pragmatic, and versatile mindset, you should keep reading.
- ✓ The program is a joint initiative with MSFT, which means that you get trained by the best-in-class Microsoft instructors and Avanade security experts.
- ✓ If you're looking to deepen your cloud or infrastructure experience with security skills and want to challenge yourself in a new business, this program will take your career to the next level as a certified Cyber Security Consultant at Avanade. You are fully paid during the course of the program as part of your onboarding cycle.
- ✓ In this role, you will be a trusted advisor for our clients when it comes to security architecture. From implementing infrastructures around security to leading technical workshops, working with partner editors, and participating in pre-sales activities. The world of cyber security is truly yours to conquer.

Unparalleled expertise in securing the Microsoft platform

Why Avanade?

Avanade's security community is growing fast, and there's no stopping us! Being part of the Avanade family means you'll experience a great company culture, where colleagues support each other and share knowledge through formal training opportunities as well as informal evenings amongst peers.

Distinctive experiences

We have unparalleled and boundaryless experiences that shape your career with opportunities you won't find elsewhere.

Limitless learning

We are curious, embrace challenges and leverage our limitless opportunities to learn and lead with the best and build our collective expertise.

Ambitious growth

We have bold ambitions to do amazing work that change things for the better.

We have a strong focus on the career and development opportunities of all our people. You will have a career advisor who will work with you to shape your individual career path so you're never standing still. On top of that, we have great benefits including Private Medical Cover, Income Protection Policy, Extended benefits, Bonus, 80 hours per annum studying towards Microsoft Certifications, generous pension, car allowance, and much more.

Where do I sign up?

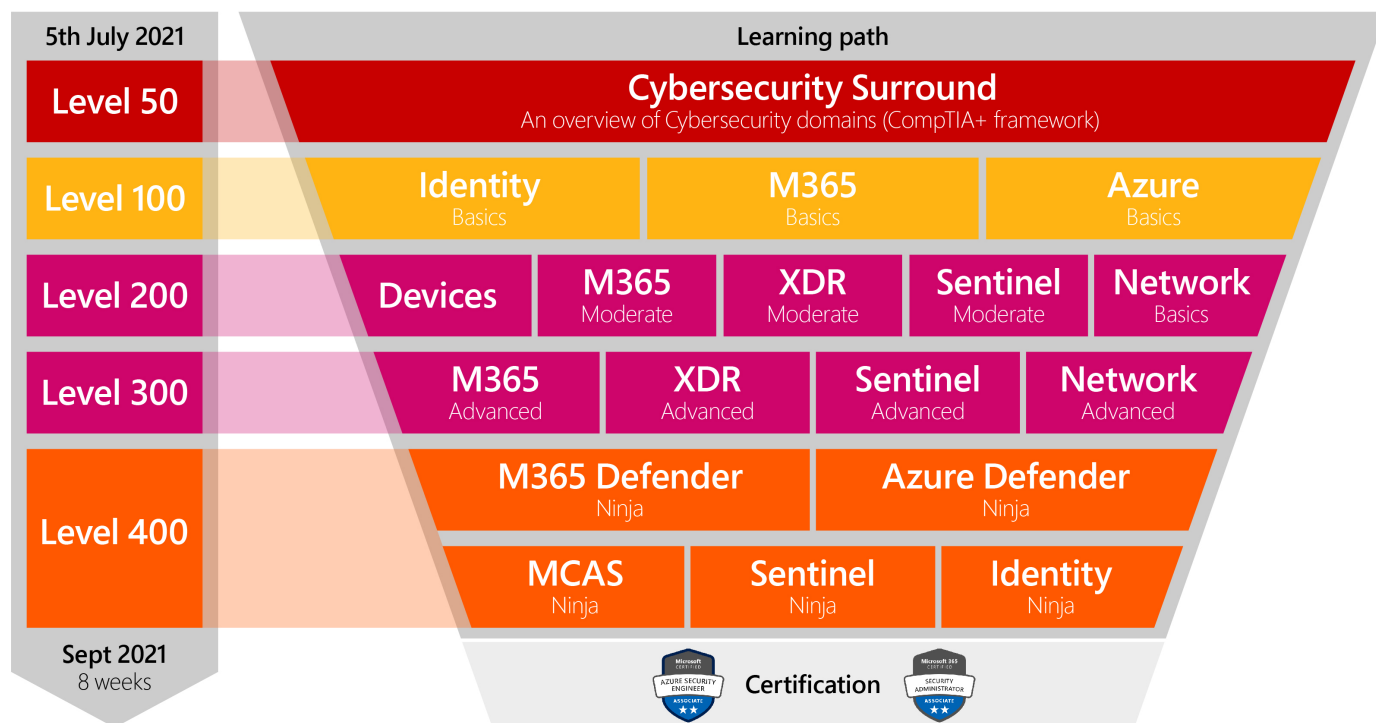

If you're interested in this role with 2-month training program included, simply register through the button below and someone from Avanade will be in touch to discuss all details and give you the opportunity to ask any further questions you may have.

Don't worry, this is not a formal application yet! After you connected with someone from our team and you both believe this is the perfect opportunity for you, the next steps to complete your application will be clearly communicated.
